

JULIETTE LOSSKY

CINEMATOGRAPHER

Born and raised in the south of France, Juliette is a cinematographer, whose love of light spans all the way back to the summers she spent watching the sun glide over the walls of her childhood home. Wishing to dedicate her life to the art of storytelling, she moved to Montreal, where she studied Film Production at Concordia University.

Over the years, Juliette's career as a DOP grew from her ability at capturing light and texture, her images gleaming with an authentic sincerity which reflects her enthusiasm for collaborative workflow. She has since worked on a wide range of cinematic content, from commercials, music videos, and narrative films.

Juliette has won several awards, including Outstanding Achievement in Cinematography at NYC Web Fest 2020 and Best Cinematography at Rio Web Fest 2020 for her work on the web series "Amours D'occasion".
